Dear Sir..

I would Hope that when the equipment for CO-GEN is purchased It will Be the latest-design to REDUCE noxious fumes.. (carbon monoxide) 1

Considering BP OILS maxium need FOR 300MW the REQUEST FOR 720MW is extra pollution (OVER-KILL) 2

Being that the trans-mission line will eventually link up with Canada's, Vancouver Island. The Real reason for this Boondoggle (Over) 3

2 of 2

we should be given
the best Equipt.
@ BPS site. 3 cont.

*w/ SUMAS II and
NOW BP Cherry
PT. We have
Become over Burd-
ened w/ fumes
One project would
have been too
much.. 4

We can anticipate
more LINKS on this
Transmission line
from Canada to
Anacortes.". Do your
JOB." 5
