Table 2-1	Overview of Sodium-Bonded Spent Nuclear Fuel Categories	2-5
Table 2-2	Sodium-Bonded Spent Nuclear Fuel Storage Locations and Configurations	2-6
Table 2-3	Sodium Removal and Disposition by Treatment and Management Method	2-16
Table 2-4	Summary of Environmental Consequences for the Treatment of Sodium-Bonded Spent Nuclear Fuel	2-48
Table 3-1	INEEL Site-Wide Infrastructure Characteristics	3-4
Table 3-2	Comparison of Modeled Ambient Air Concentrations From INEEL Sources With Most Stringent Applicable Standards or Guidelines	3-7
Table 3-3	Prevention of Significant Deterioration Increment Consumption at Craters of the Moon Wilderness (Class I) Area by Existing (1996) and Projected Sources Subject to Prevention of Significant Deterioration Regulation	3-8
Table 3-4	Prevention of Significant Deterioration Increment Consumption at Class II Areas by Existing (1996) and Projected Sources Subject to Prevention of Significant Deterioration Regulation at INEEL	3-8
Table 3-5	Distribution of Employees by Place of Residence in the INEEL Region of Influence, 1997	3-18
Table 3-6	Sources of Radiation Exposure to Individuals in the INEEL Vicinity Unrelated to INEEL Operations	3-20
Table 3-7	Radiation Doses to the Public From Normal INEEL Operations in 1997 (Total Effective Dose Equivalent)	3-21
Table 3-8	Radiation Doses to Workers From Normal INEEL Operations in 1997 (Total Effective Dose Equivalent)	3-22
Table 3-9	Waste Generation Rates and Inventories at INEEL	3-25
Table 3-10	Waste Management Capabilities at INEEL	3-25
Table 3-11	Preferred INEEL Waste Management Alternatives From the Waste Management Programmatic EIS and Associated Records of Decision	3-31
Table 3-12	Savannah River Site-Wide Infrastructure Characteristics	3-34
Table 3-13	Comparison of Modeled Ambient Air Concentrations From Savannah River Site Sources With Most Stringent Applicable Standards or Guidelines	3-36
Table 3-14	Distribution of Employees by Place of Residence in the Savannah River Site Region of Influence, 1997	3-50
Table 3-15	Sources of Radiation Exposure to Individuals in the Savannah River Site Vicinity Unrelated to Savannah River Site Operations	3-52
Table 3-16	Radiation Doses to the Public From Normal Savannah River Site Operations in 1997 (Total Effective Dose Equivalent)	3-53
Table 3-17	Radiation Doses to Workers From Normal Savannah River Site Operations in 1997 (Total Effective Dose Equivalent)	3-54
Table 3-18	Waste Generation Rates and Inventories at Savannah River Site	3-56
Table 3-19	Waste Management Capabilities at Savannah River Site	3-57
Table 3-20	Preferred SRS Waste Management Alternatives From the Waste Management Programmatic EIS and Associated Records of Decision	3-61
Table 4-1	Risk of Latent Cancer Fatalities and Other Health Effects From Exposure to 1 Rem of Radiation	4-5
Table 4-2	Annual Radiological Impacts to the Public From Operational Activities Associated With the No Action Alternative	4-10
Table 4-3	Annual Radiological Impacts to Workers From Operational Activities Associated With the No Action Alternative	4-10
Table 4-4	Accident Frequency and Consequences for the No Action Alternative	4-12

Table 4-5	Annual Cancer Risks Due to Accidents for the No Action Alternative	4-12
Table 4-6	Hazardous Chemical Accident Impacts for the No Action Alternative	4-13
Table 4-7	Summary of Process Waste Material Categories for the No Action Alternative	4-14
Table 4-8	Amount of Wastes Generated for the No Action Alternative	4-15
Table 4-9	Annual Radiological Impacts to the Public From Operational Activities Associated With Alternative 1	4-20
Table 4-10	Annual and Total Radiological Impacts to Workers From Operational Activities Associated With Alternative 1	4-20
Table 4-11	Accident Frequency and Consequences for Alternative 1	4-21
Table 4-12	Annual Cancer Risks Due to Accidents for Alternative 1	4-22
Table 4-13	Hazardous Chemical Accident Impacts for Alternative 1	4-23
Table 4-14	Amounts of Wastes Generated for Alternative 1	4-24
Table 4-15	Annual Radiological Impacts to the Public From Operational Activities Associated With Alternative 2	4-28
Table 4-16	Annual and Total Radiological Impacts to Workers From Operational Activities Associated With Alternative 2	4-29
Table 4-17	Accident Frequency and Consequences at ANL-W for Alternative 2	4-30
Table 4-18	Annual Cancer Risks Due to Accidents at ANL-W for Alternative 2	4-31
Table 4-19	Hazardous Chemical Impacts Due to Accidents at ANL-W for Alternative 2	4-31
Table 4-20	Amounts of Wastes Generated for Alternative 2	4-33
Table 4-21	Nonradiological Air Quality Concentrations Associated With Alternative 3 at SRS for Comparison With Ambient Air Quality Standards	4-36
Table 4-22	Chemical Effluent Concentrations From PUREX Cooling Water Treatment	4-38
Table 4-23	Estimated Radiological Liquid Effluents During PUREX Processing of Blanket Spent Nuclear Fuels	4-39
Table 4-24	Annual Radiological Impacts to the Public From Operational Activities Associated With Alternative 3	4-41
Table 4-25	Annual and Total Radiological Impacts to Workers From Operational Activities Associated With Alternative 3	4-41
Table 4-26	Hazardous Chemical Impacts to the Public From Operational Activities at SRS for Alternative 3	4-43
Table 4-27	Hazardous Chemical Impacts to the Noninvolved Worker From Operational Activities at SRS for Alternative 3	4-43
Table 4-28	Accident Frequency and Consequences at ANL-W for Alternative 3	4-44
Table 4-29	Annual Cancer Risks Due to Accidents at ANL-W for Alternative 3	4-44
Table 4-30	Accident Frequency and Consequences at SRS for Alternative 3	4-45
Table 4-31	Annual Cancer Risks Due to Accidents at SRS for Alternative 3	4-45
Table 4-32	Hazardous Chemical Impacts Due to Accidents at ANL-W for Alternative 3	4-46
Table 4-33	Hazardous Chemical Impacts Due to Accidents at SRS for Alternative 3	4-46
Table 4-34	Amounts of Wastes Generated at ANL-W for Alternative 3	4-48
Table 4-35	Summary of Waste Material Categories at SRS for Alternative 3	4-50
Table 4-36	Amounts of Wastes Generated at SRS for Alternative 3	4-51
Table 4-37	Annual Radiological Impacts to the Public From Operational Activities Associated With Alternative 4	4-54
Table 4-38	Annual and Total Radiological Impacts to Workers From Operational Activities Associated With Alternative 4	4-55
Table 4-39	Accident Frequency and Consequences for Alternative 4	4-56
Table 4-40	Annual Cancer Risks Due to Accidents at ANL-W for Alternative 4	4-57
Table 4-41	Nonradiological Impacts of Accidents for Alternative 4	4-58
Table 4-42	Amounts of Wastes Produced at ANL-W for Alternative 4	4-59
Table 4-43	Nonradiological Air Quality Concentrations Associated with Alternative 5 at SRS for Comparison with Ambient Air Quality Standards	4-62
Table 4-44	Annual Radiological Impacts to the Public from Operational Activities Associated With Alternative 5	4-65

Table 4-45	Annual and Total Radiological Impacts to Workers From Operational Activities Associated With Alternative 5	4-66
Table 4-46	Hazardous Chemical Impacts to the Public from Operational Activities at SRS for Alternative 5	4-67
Table 4-47	Hazardous Chemical Impacts to the Noninvolved Worker from Operational Activities at SRS for Alternative 5	4-67
Table 4-48	Accident Frequency and Consequences at ANL-W for Alternative 5	4-69
Table 4-49	Annual Cancer Risks Due to Accidents at ANL-W for Alternative 5	4-69
Table 4-50	Accident Frequency and Consequences at SRS for Alternative 5	4-70
Table 4-51	Annual Cancer Risks of Accidents at SRS for Alternative 5	4-70
Table 4-52	Amounts of Wastes Produced at ANL-W for Alternative 5	4-71
Table 4-53	Summary of Waste Material Categories at SRS for Alternative 5	4-74
Table 4-54	Amounts of Wastes Generated at SRS for Alternative 5	4-74
Table 4-55	Annual Radiological Impacts to the Public from Operational Activities Associated With Alternative 6	4-78
Table 4-56	Annual and Total Radiological Impacts to Workers From Operational Activities Associated With Alternative 6	4-78
Table 4-57	Accident Frequency and Consequences for Alternative 6	4-80
Table 4-58	Annual Cancer Risks Due to Accidents at ANL-W for Alternative 6	4-80
Table 4-59	Hazardous Chemical Impacts Due to Accidents at ANL-W for Alternative 6	4-81
Table 4-60	Amounts of Wastes Produced at ANL-W for Alternative 6	4-82
Table 4-61	Transportation Summary for Sodium-Bonded Fuels	4-85
Table 4-62	Offsite Activities Included in the Assessment of Cumulative Impacts at ANL-W and INEEL	4-88
Table 4-63	Ongoing Major Projects at ANL-W and INEEL	4-89
Table 4-64	Estimated Average Annual Cumulative Radiological Doses and Resulting Health Effects to Offsite Population and Facility Workers	4-91
Table 4-65	Estimated Cumulative Total Waste Generation From ANL-W and INEEL Concurrent Activities (cubic meters)	4-92
Table 4-66	Estimated Maximum Cumulative Ground-Level Concentrations of Nonradiological Pollutants (micrograms per cubic meter) at SRS Boundary	4-95
Table 4-67	Estimated Average Annual Cumulative Radiological Doses and Resulting Health Effects to the Maximally Exposed Offsite Individual and Population in the 80-Kilometer (50-Mile) Radius From Airborne Releases at SRS	4-96
Table 4-68	Estimated Average Annual Cumulative Radiological Doses and Resulting Health Effects to Offsite Population in the 80-Kilometer (50-Mile) Radius From Liquid Releases at SRS	4-97
Table 4-69	Estimated Average Annual Cumulative Radiological Doses and Resulting Health Effects to Offsite Population and Facility Workers	4-99
Table 4-70	Estimated Cumulative Total Waste Generation from SRS Concurrent Activities (Cubic Meters)	4-101
Table 4-71	Year of Completing Treatment	4-105
Table 5-1	Relevant DOE Orders (as of June 1999)	5-6
Table 5-2	State Environmental Laws, Regulations, and Agreements	5-8
