Dear David,

I am writing in response to the June 7, 2002 article in the Portsmouth Daily Times. I would like to strongly suggest that you find somewhere else to store your material [other than at the Portsmouth Gaseous Diffusion Plant]. I support Rep. Ted Strickland when he said, "if you can't trust them (DOE) on anything they've said to us. They've lied to us before." I do not think that using PGD^{plant} is in the best interest of our area - we have enough problems without needing dumped in with nuclear waste. I don't believe the DOE ~~will~~ "re-use" or re-sell the material. A dump site is a dump site. Thank you.

Cindy Newsom
