

TABLE OF CONTENTS

<u>Appendix</u>		<u>Page</u>
A GEOLOGY AND SUBSURFACE HYDROLOGY		A-1
A.1 Geology and Seismology		A-1
A.1.1 Regional Geologic Setting		A-1
A.1.1.1 Tectonic Provinces		A-1
A.1.1.2 Stratigraphy		A-3
A.1.1.3 Geomorphology		A-8
A.1.2 Seismology and Geologic Hazards		A-9
A.1.2.1 Geologic Structures and Seismicity . . .		A-9
A.1.2.2 Seismic Events and Liquefaction Potential		A-13
A.2 Groundwater Resources		A-13
A.2.1 Hydrostratigraphy		A-13
A.2.2 Groundwater Hydrology		A-16
A.2.2.1 Hydrologic Properties		A-16
A.2.2.2 Head Relationships		A-21
A.2.2.3 Groundwater Flow		A-29
A.2.3 Groundwater Quality		A-35
A.2.3.1 Regional Groundwater Quality		A-35
A.2.3.2 Mixed Chemical and Radionuclide Contamination		A-39
A.2.3.3 Radionuclide Contamination		A-48
A.2.4 Groundwater Use		A-51
A.2.4.1 Important Aquifers		A-51
A.2.4.2 Regional and Local Groundwater Use . . .		A-51
A.2.4.3 SRP Groundwater Use		A-59
A.3 Surface Water/Groundwater Relationship		A-59
A.3.1 Hydrogeologic Interrelationships at SRP		A-59
A.3.2 Groundwater Recharge and Discharge at SRP . . .		A-64
A.3.3 Water Budget for Separations Areas and SRP Burial Ground		A-79
References		A-81

LIST OF TABLES

<u>Table</u>		<u>Page</u>
A-1	Significant Geologic Structures in SRP Region	A-10
A-2	Site Intensities for Significant Earthquakes	A-11
A-3	Hydrostratigraphic Units Near Savannah River Plant	A-14
A-4	Hydraulic Conductivity of Ellenton Formation	A-17
A-5	Typical Hydrologic Properties in Separations Areas	A-18
A-6	Typical Hydrologic Properties in A- and M-Areas	A-19
A-7	Typical Groundwater Velocities for Important Hydrogeologic Units on Savannah River Plant	A-32
A-8	Analysis of Groundwater from Coastal Plain Formations at Savannah River Plant	A-37
A-9	Groundwater Monitoring Parameters	A-40
A-10	F-Area Seepage Basin Contaminant Potential	A-42
A-11	H-Area Seepage Basin Contaminant Potential	A-43
A-12	Hazardous Constituents Measured in Downgradient Monitoring Wells at F- and H-Area Seepage Basins	A-44
A-13	M-Area Settling Basin Contaminant Potential	A-46
A-14	Migration of Tritium and Strontium-90 from Seepage Basins in 1984	A-49
TE	A-15 Radionuclides Detected in Groundwater Beneath Burial Ground .	A-50
	A-16 Groundwater Pumpage for Municipal Supplies	A-56
	A-17 Groundwater Pumpage for Industrial and Agricultural Supplies .	A-57
	A-18 Average Continuous Groundwater Pumping Rates by Area at Savannah River Plant, 1968 to 1985	A-60
	A-19 Groundwater Recharge and Discharge Zones at Savannah River Plant	A-78

LIST OF FIGURES

<u>Figure</u>		<u>Page</u>
A-1	Generalized Northwest to Southeast Geologic Profile, and SRP Regional Site Locator	A-2
A-2	Tentative Correlation of Stratigraphic Terminology of Southwestern South Carolina Coastal Plain	A-4
A-3	Isoseismal Map Showing Reported Intensities for the June 1985 Earthquake at the Savannah River Plant	A-12
A-4	Vertical Head Relationship Near the H-Area Seepage Basins	A-22
A-5	Calculated Potentiometric Surface for the Cretaceous Sediments Aquifer	A-24
A-6	Head Difference Between Upper Cretaceous Sediments Aquifer and Congaree Formations at Savannah River Plant	A-25
A-7	Head Difference Between Upper Cretaceous Sediments Aquifer and Congaree Formation at Savannah River Plant (April, 1987)	A-26 TC
A-8	Hydrologic Section Perpendicular to Savannah River Through M-Area	A-27
A-9	Potentiometric Surface of the Cretaceous Sediments Aquifer	A-30
A-10	Potentiometric Map of Cretaceous Sediments Aquifer at Savannah River Plant (1982)	A-33
A-11	Potentiometric Map of Congaree Formation at Savannah River Plant (May 11, 1982)	A-34
A-12	Distribution of Groundwater Flow Between Hydrologic Units in the Vicinity of A- and M-Areas	A-36
A-13	Subsurface Flow Path from F-Area Seepage Basin 3	A-45
A-14	Cross Section Through M-Area Showing Total Chlorinated Hydrocarbon Concentrations (ppb) in Groundwater (April-July 1984)	A-47
A-15	Locations of Municipal and Industrial Groundwater Users Within About 32-kilometer Radius of Center of Savannah River Plant, and Direction of Groundwater Flow in Congaree Formation	A-53
A-16	Locations of Municipal and Industrial Groundwater Users Within About 32-kilometer Radius of Center of Savannah River Plant, and Direction of Groundwater Flow in the Cretaceous Sediments Aquifer	A-54 TE
A-17	Hydrogeologic Section Perpendicular to Savannah River Through H-Area	A-55
A-18	Hydrographs of Cretaceous Sediment Aquifer and Ellenton Formation	A-61
A-19	Geohydrologic Section in Central Part of Savannah River Plant	A-63
A-20	Comparison of Groundwater Elevations in the Congaree Formation to Those in The Cretaceous Sediments Aquifer in the Southern Part of the Savannah River Plant (1982)	A-65
A-21	Vertical-Head Relationships Near M-Area in 1982	A-66
A-22	Generalized Map of Head Difference Between the Cretaceous Sediments Aquifer and Congaree Formations at the Savannah River Plant (1982)	A-67
A-23	Locations of Cluster of Wells Shown in Figures 3-8, A-20, and A-21	A-69

LIST OF FIGURES
(Continued)

<u>Figure</u>		<u>Page</u>
A-24	Average Elevation of Water Table in Separations Areas at Savannah River Plant During 1968	A-70
A-25	Water-Table Elevations (in Feet Below Mean Sea Level) at C-Area During Period 1961-1967	A-71
A-26	Water-Table Elevations (in Feet Above Mean Sea Level) at K-Area During Period 1961-1967	A-72
A-27	Water-Table Elevations (in Feet Above Mean Sea Level) at L-Area During Period 1961-1967	A-73
A-28	Water-Table Elevations (in Feet Above Mean Sea Level) at P-Area During Period 1961-1967	A-74
A-29	Water-Table Elevations (in Feet Above Mean Sea Level) at R-Area During Period 1961-1967	A-75
A-30	Potentiometric Surface of Upper Part of McBean Formation in Separations Area at Savannah River Plant (August 29, 1977) . .	A-76
A-31	Potentiometric Map of the Upper Part of the Congaree Formation in the Separations Areas at the Savannah River Plant (August 29, 1977)	A-77
