

Table J-2. DOE responses to comments on Draft EIS (continued)

Comment number	Comments	Responses
AB-1	<p style="text-align: center;">TESTIMONY OF HEINZ J. MUELLER,            APRIL 30, 1986, BEFORE THE            ALTERNATIVE COOLING WATER DRAFT EIS            PUBLIC HEARING</p> <p>I'm Heinz Mueller. I'm with US EPA in Atlanta. EPA is currently reviewing the draft Environmental Impact Statements to determine which of the alternatives provide the least impact to the environment. We will be submitting formal comments to DOE by mid-May, and we're primarily here today to listen to any comments and concerns. We appreciate the opportunity to participate. And that's really all we have to say today. Thank you.</p>	Comments noted.
