	<p>REF: Draft Environmental Impact Statement, Alternative Cooling Water Systems Savannah River Plant, Aiken, South Carolina</p>	
	<p>Dear Mr. Whitfield:</p>	
AZ-1	<p>We have reviewed the referenced document, including its Appendix E. The discussion of historic and archeological properties and effects on them appears thorough and complete. Based on the information provided, we would have no objection to a determination of "no effect" for Archeological site 38BR450 in relation to any increased flows in the Beaver Dam Creek (D-Area) under that alternative of the cooling water systems being considered. Please ensure that the South Carolina State Historic Preservation Officer has no</p>	<p>Comments noted. The South Carolina State Historic Preservation Officer concurs with the "no effect" determination. See comments AT-1 and AT-2.</p>
