Subject: stop the bombs

Department of Energy,

Please, I implore you, do not proceed with the Y-12 bomb plant in Oakridge, Tennessee. The Cold War is over - there is no need to continue with this insanity. Think of our children and their children. | 1/16

Thank you, Eric T Knight

Comment No. 1

Issue Code: 16

Comment noted. DOE is responsible for meeting the current requirements set forth by the President and Congress in the Nuclear Weapons Stockpile Memorandum, which is updated annually. The issue of whether DOE should produce nuclear weapons is beyond the scope of the Y-12 SWEIS.
