Subject: re: mission

To whom it may concern:

As a Seminary Student here in TX, I wish to encourage the DOE to enter into a new paradigm: one of a new direction. As our Lord has instructed, we are to wage peace and not war.

Please do all you can to effect this mission into all of your future endeavors.

Thank you for your time and consideration.

Sincerely,
Craig Clark

Comment No. 1

Issue Code: 16

The Y-12 SWEIS assesses the potential environmental impacts associated with the continued operation of the Y-12 National Security Complex, and the proposed construction and operation of new facilities for the HEU Storage Mission and Special Materials Mission at Y-12. The need for nuclear weapons and whether DOE should produce nuclear weapons are beyond the scope of the Y-12 SWEIS.
