ALTERNATIVE 4
DOE'S PREFERENCE

My name is Kenny Cook and I currently reside at 627

Glendale Avenue in Clinton and have been a member of the
Clinton community my whole life. I want to state that I

RECORDING SEC'y ATLC
SECRETARY'S REQUEST LOCAL 2520

appreciate your efforts here at tonight's comment session
and ask that you consider my request. I am here to state that
it is my privileged to come before you and offer my support
for the modernization of the Y-12 National Security
Complex here in Oak Ridge. I have been an employee of
the Y-12 plant-site since 1978 and my current job
classification is Chemical Operator, which I have been in
since 1980. I have always work within the Enriched
Uranium Organization my entire tenure at the Y-12 facility.

I feel that the suggested path forward to construct a new
Highly Enriched Uranium Materials Storage Facility and a
new Special Materials Complex at the present Oak Ridge
Y-12 Site should be the preferred option. The current Y-12

plant-site has serve the employees, the community and the country well, but it is time to replace the existing and aging facility with a new, more modern facility that is built to include all aspects of a worker friendly environment.

Building a new facility will also let us incorporate the most advance technologies available, to ensure that both the workers and the communities surrounding the Y-12 site are protected and also be assured that Y-12 National Security Complex will continue to provide safe, reliable long-term employment and stability to all of us, the workers, the community and the United States Department of Energy. Again, I thank you for you time and effort in this decision making process and ask that consider these comments.
