

AUGUST 2001

CONDON WIND PROJECT

Final Environmental Impact Statement
DOE/EIS-0321

Bonneville Power Administration has completed the Final Environmental Impact Statement (EIS) for the Condon Wind Project. This abbreviated Final EIS is made up of three parts:

- 1) an updated and corrected Summary of the Final EIS;
- 2) comments received on the Draft EIS and responses to them; and
- 3) changes and corrections to be made to the Draft EIS to make it final.

Since the changes and corrections to the Draft EIS are relatively minor, BPA has chosen to just print the changes to the Draft. The Final EIS includes both this abbreviated Final document and a copy of the Draft EIS.

Environmental Process

In May 2001, we completed the Draft EIS for the Condon Wind Project and made it available for review and comment. In response to the comments we received, we have made some changes that are included in this abbreviated Final EIS.

A decision on which alternative Bonneville will adopt will be made and recorded in a Record of Decision. We plan to have the Record of Decision available about one month after publication of this Final EIS.

For More Copies

If you need additional copies of the abbreviated Final EIS, or a copy of the Draft EIS, please call our toll-free document request line: 1-800-622-4520. Leave a message naming this project and the document(s) you desire, and your complete mailing address. Both documents are also available on our web site at: www.efw.bpa.gov.
